Fabrice Rimlinger

Director, Digital Transformation & PMO | Business-IT Bridge | Data, Automation & Change

+33 (0)6 23 57 77 85 | fabrice@rimlinger.eu | linkedin.com/in/fabricerimlinger | Marseille, France | FR / EN (C2) / ES (C2)

PROFILE

Senior digital transformation and PMO leader with 20+ years' experience delivering complex change across international logistics, industrial and supply chain environments. Proven track record in ERP/WMS/TMS rollouts, BI and knowledge-management platforms, AI/RPA automation, post-acquisition integration and project governance. Strong business-IT bridge: able to translate operational needs into scalable digital products and drive adoption from C-level to frontline teams. Based in Marseille; fluent in French, English and Spanish.

SKILLS

- **Transformation & PMO** - process definition, delivery governance, milestone tracking, stakeholder reporting, change management, project manager coaching, Agile, post-acquisition integration
- **Data & BI** - PowerBI, Tableau, Microstrategy, Cognos, SQL, PowerQuery, advanced Excel VBA, data visualization, data mining
- **Product & digital** - product management, UI/UX design, requirements specification, vendor selection, ERP / WMS / TMS deployment, EDI; Sparklines for Excel open source add-in (SourceForge - Fujitsu, HSBC, Schneider Electric)
- **Automation & AI** - AI forecasting, AI-assisted project reporting, semantic standardization, RPA, call bots, data-driven decision processes
- **Leadership** - cross-functional teams up to 25 direct reports and 30+ consultants, budgets managed up to €72M CAPEX and €40M/year, intercultural management across 7 countries
- **Tools** - Jira, MS Project, Salesforce, Claude Code, AutoCAD (certified)

KEY ACHIEVEMENTS

- **Amazon WW Expansion platform** - designed and rolled out a global knowledge management / BI platform at Amazon, adopted by all EMEA stakeholders. Product management and UI/UX in Agile.
- **Colis Privé automation** - sponsored the AI / RPA / call bot rollout. Manual tasks cut by 40%, service level up 30%, Customer Service budget cut by 20% (€550k/year) despite 7.5% activity growth.
- **WMS and TMS rollout at Pomona** - WMS deployed with the Methods and Process teams (warehouse productivity up 25%); TMS rolled out across 600 trucks - route planning, on-board sensor data, vehicle management, transport process optimization.
- **Alloga / Cencora PMO** - embedded new PMO practices in IT teams, governance artifacts calibrated on group IT standards (UK), AI deployed into daily work (customized project reporting, semantic standardization).

PROFESSIONAL EXPERIENCE

06/2026 - present | Marseille, France
