171 Chemin des Aucels
84120 Mirabeau - France

20 years of cross-functional logistics positions at operational and corporate level in multinational environments. With a great capacity to adapt to different cultures and to communicate appropriately at all hierarchical level, I am natural self-starter, able to lead complex projects involving multiple stakeholders, recognized as a very focused and creative problem solver, with down to earth approach, ownership and strong bias for action.

EDUCATIONAL BACKGROUND

Engineering degree at ENSA Toulouse (1994) (National school of agronomy)
- Specialized in Agronomy (crop science), economics and management.

Biochemistry and organic chemistry degree (Montpellier University 1991)

LANGUAGES

French : Native
English : Fluent (C2)
Spanish : Fluent (C2)

CORE COMPETENCIES / SKILLS

Project/Program management

- Startup large projects with limited resources, undefined plan and very tight timelines. (AMZL site launch)
- Perpetual "risk assessment / prioritization / risk mitigation" decision process.
- Provide frequent on-site monitoring and schedule tracking report to project stakeholders.
- Management of multidisciplinary and multicultural teams, including management of remote teams.

Information Technology

- IT Product management (WMS – CRM) using Agile methods
- Software: Skuid - AutoCAD (certified) - Cognos Reporting Studio (certified) - SQL – Power BI
- Strong data culture: SQL & query builders (DB audit, data cleaning, statistical analysis).
- Advanced VBA programming: "Sparklines for Excel", open-source Data-visualization add-in for Microsoft Excel.

Logistics - Supply-chain

- Modelization of logistics organization (logistics network, warehouse layout, processes).
- ERP and WMS design, set-up, deployment and staff training.
- Organization of warehouses based on products constrains and flow efficiency.

Real Estate Due Diligence

- Risk management for large real-estate programs (Several hundreds of sites per year).
- Due Diligence – Environmental and Technical appraisal

WORKING EXPERIENCE
