Fabrice Rimlinger

Senior PMO / Change Lead | Operations & Transformation

+33 (0)6 23 57 77 85 | fabrice@rimlinger.eu | linkedin.com/in/fabricerimlinger | Marseille, France

PROFESSIONAL SUMMARY

Senior manager with 20 years of experience embedding change in ways of working and coaching project teams in complex, international logistics environments — Amazon (10 years), Colis Privé (CEVA Logistics / CMA CGM Group), Infarm, Dole Europe.

I specialize in the hands-on work of change: attending the meetings, building materials alongside teams, coaching PMs individually, and creating governance artifacts that become daily practice. Track record of breaking ingrained habits and embedding tighter governance controls through hearts and minds leadership.

Trilingual FR/EN/ES · Based in Marseille · Available immediately

PROFESSIONAL EXPERIENCE

Director Business Excellence — *Colis Privé (CEVA Logistics / CMA CGM Group)* 05/2024 – 02/2026 · Marseille

375M€ revenue · 90M+ parcels/year · 25 direct reports

- Directed and coached a 25-person team across performance, service quality, and continuous improvement — embedding data-driven ways of working and governance standards across 5 hubs and 25 delivery stations
- Reorganized the performance team: introduced steering committees, automated performance tracking, and a governance framework that challenged results weekly — moved from ad hoc reviews to a structured, accountable operating rhythm
- Led change management for an automation programme (AI forecasting, RPA, call bots): coached teams through new ways of working, reduced manual tasks by 40%, improved service levels by 30%
- Reduced Customer Service budget by 20% (€550k/year savings) despite 7.5% volume growth

Director of Transformation — *Colis Privé* 07/2023 – 04/2024 · Marseille

- Led the integration of 300 employees from an acquired company — coached cross-functional teams through the alignment of ways of working, handled legal negotiations, risk management, and P&L modelling
- Delivered full operational continuity throughout the transition (250,000 daily deliveries) — by working alongside teams and aligning processes incrementally, not imposing change from above
- Defined the governance framework and operational playbooks that both organizations adopted as their new standard

Head of Technical & Environmental Due Diligence — *Amazon EMEA*10/2018 – 08/2021 · Remote (Aix-en-Provence)

1,200+ projects/year · 10 risk managers + 30+ consultants · €40M/year budget · team scaled 3 → 10 in 3 months

- Scaled the team from 3 to 10 in under 3 months — built the governance structure that made it sustainable: moved from individual Excel files to a structured operating system with weekly/monthly rituals, project trackers, milestone deliverables, and stakeholder packs, all from scratch
- Designed and deployed SHIELD — Amazon EMEA's governance platform for 1,200+ projects/year. Real work: building the artifacts (intake forms, reporting templates, governance packs), running workshops, coaching individuals until **100% EMEA stakeholder adoption**
- Created the DD Intake process from scratch — governance artifact adopted as the standard operating method by all Amazon Real Estate teams EMEA

Head of Transportation Technology — *Amazon South EU* 04/2014 – 03/2016 · Paris

- Built the governance framework for a team of 5 project managers (carrier integration, FR/IT/ES): milestone structure, validation gates, budget-to-delivery tracker, and formal handover protocol to logistics operations
- Introduced PMO artifacts giving the team a shared, consistent project lifecycle — from budget approval through deliverables to operational handover
- Coached PMs individually on project disciplines: milestone tracking, stakeholder reporting, risk escalation, delivery accountability

Head of Last-Mile Delivery Expansion South EU — *Amazon Logistics* 04/2016 – 09/2018 · Milan / Madrid

- Launched **15 delivery stations in 2 years** (Italy + Spain) — embedded consistent ways of working across 5 launch managers and 19 cross-functional teams from scratch, every launch
- Created the AMZL Launch Playbook — governance artifact standardizing EU station launches; deployed across EMEA
- Coached launch managers through repeated high-stakes launches, building project governance capabilities under peak deadlines

Director of Expansion — *Infarm* 06/2021 – 07/2022 · Berlin

€72M CAPEX · 16 engineers and technicians · 4 EU countries

- Led 16 engineers through aggressive pan-European scaling (DE, UK, DK, FR) — embedded structured project tracking, data-driven decision processes, and consistent governance routines where none had been formalised
- Conducted structured training and mentoring to elevate team capabilities and embed consistent ways of working at pace

Senior Manager, SC Long-term Planning & Risk — *Amazon EU* 08/2022 – 07/2023 · Luxembourg (Remote)

- Defined Amazon EU Supply Chain expansion SOP (36-month horizon) — governance document structuring decisions for 80+ buildings across Europe

EARLIER EXPERIENCE (2002–2014)

- **ColdEnergy France** (Owner, 2012–2014) — Project management of refrigerated logistics platforms for Dole, Fruidor, Lidl Austria (EMEA). €2M revenue.
- **Dole Europe** (Corporate Controller + SC Manager, 2007–2012) — €30–100M/year industrial investment portfolio; 5-site restructuring Romania
- **Pomona** (Fresh and frozen goods Logistics Project Manager, 2002–2005) — ERP deployment, 600 trucks; warehouse governance standards; +25% productivity

EDUCATION

Agricultural Engineer (MSc) — INP Toulouse, 1991–1994 · Economics & Agribusiness Management

Biochemistry / Chemistry — Université des Sciences, Montpellier, 1989–1991
